

How to Create a Zoom Account – for iPhone/iPad

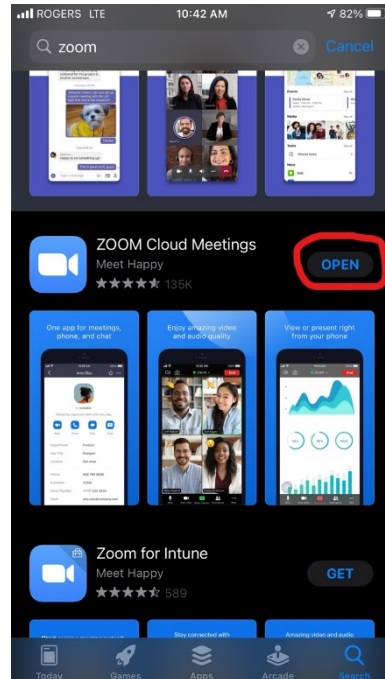

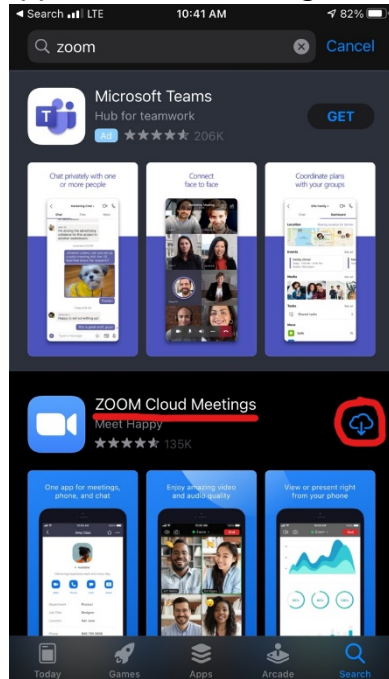

1. Unlock your phone, swipe right to show the search bar, type in “App Store,” and press “go.”

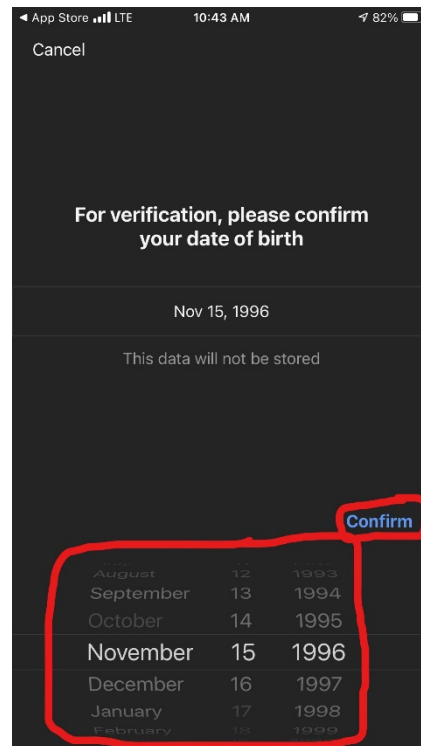

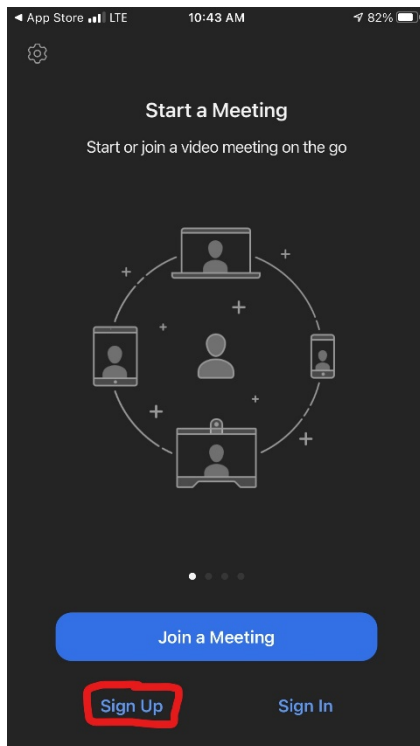

2. Press the search button in the bottom right corner, press the search bar, type “Zoom”, and press “Search.”

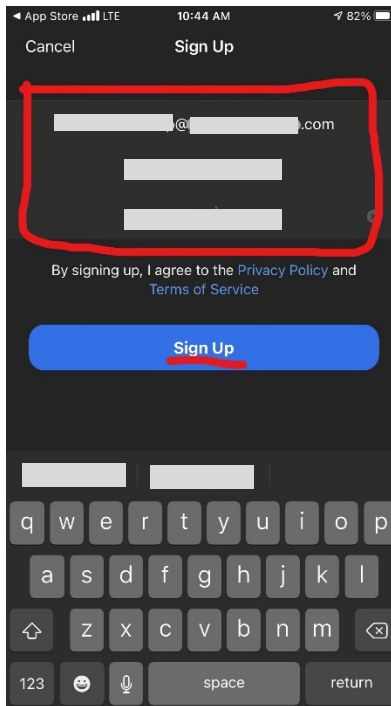

3. Find “Zoom Cloud Meetings,” press the download icon circled below, and then “Open,” once the app is finished loading.

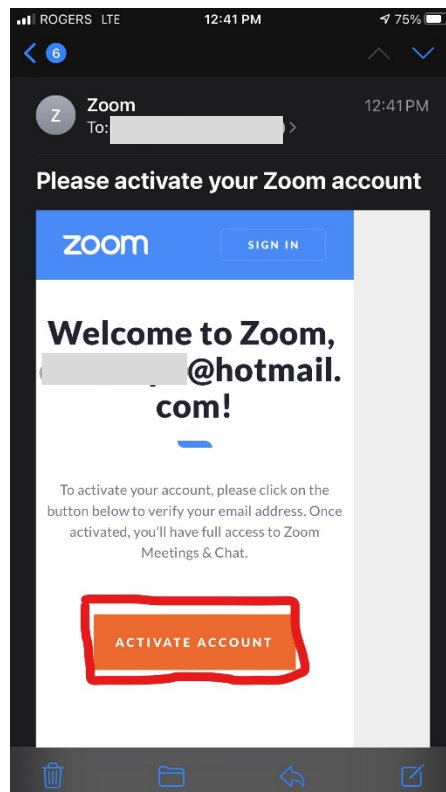

4. Once the app opens, press the “Sign Up” button in the bottom left corner, and then enter your birth date using the scrolling date selector and “Confirm.”

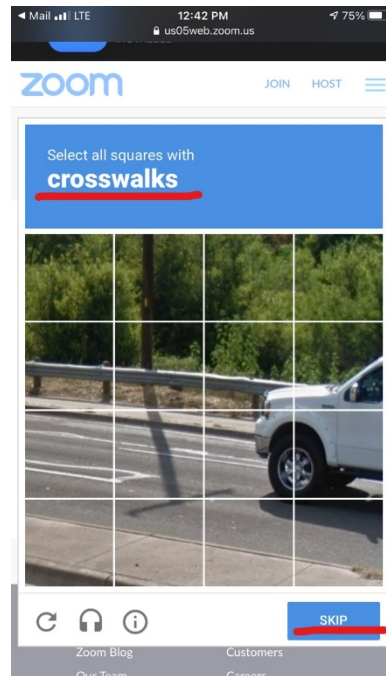

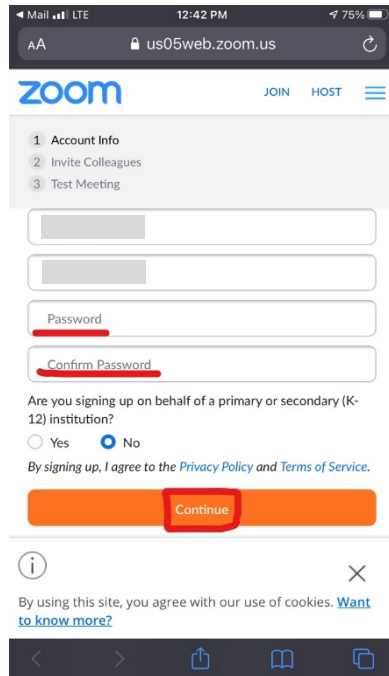

5. Enter your email address, and first and last name, followed by the “Sign Up” button.

6. Go to your email inbox on your phone and open the account activation email from Zoom. (It may be in your junk/spam if not in your inbox.) Press “Activate Account.”

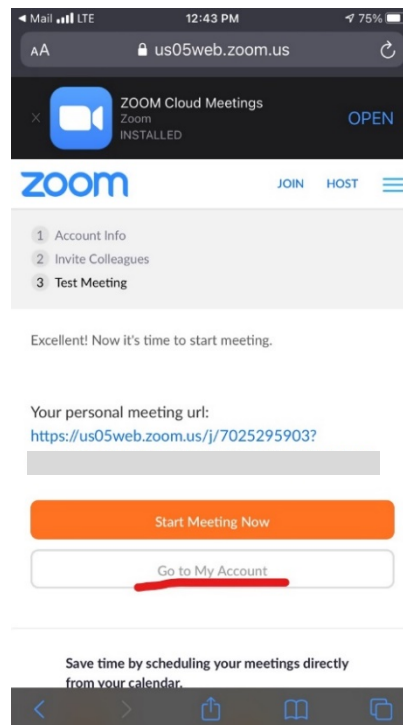

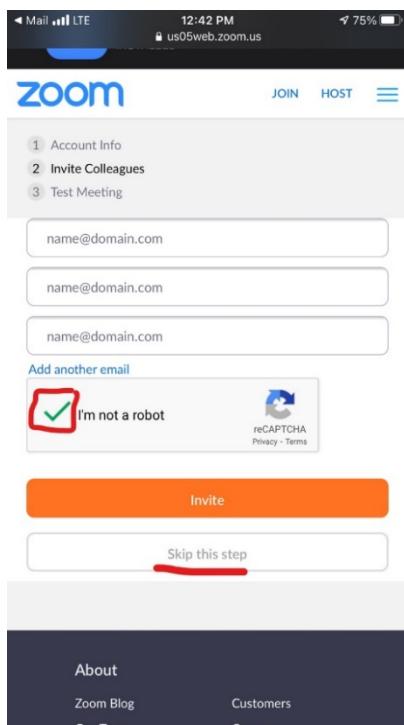

- Set yourself a password and press continue. If prompted, complete the “I am not a robot” test by following the instructions, and pressing “Skip” or “Verify.”

Note: You may receive an email notifying you that your password has been changed.

- Press the “I am not a robot” checkbox, and press “Skip This Step.” Then, press “Go to My Account.” You can now close this window.

9. Joining the AGM on March 10:

To join the NBCU AGM, refer to your AGM Registration confirmation email or reminder email. You will need to click on the “Click Here to Join” link provided in the email.

If you aren't already logged into Zoom when you click the link to join the meeting from your AGM registration confirmation email, you will be prompted to login to Zoom. Be sure to login with the same email address and password you used when you created your Zoom account and that you used when registering for the AGM.
